

TOOLS

Hex key

Compatible instructions for replacing both wheel models D74 and D97

WARNING

It is recommended not to move the bag with a wheel removed, as this may cause difficulties when fitting the new wheels.

UnscREW the bolt of the first wheel using a hex key.

Remove the used wheel and take a new one.

Screw in the new wheel.

WARNING

The threads on the wheels are reversed.

UnscREWing and scREWing are therefore performed in the opposite direction.

UnscREW the bolt of the second wheel using a hex key.

Remove the used wheel and take a new one.

Screw in the new wheel.
